

Policies and Procedures

- For EMERGENCIES, call 911 or go to the nearest hospital emergency room.
- Contact your pharmacy directly for all refills and renewals of medications. Allow 72 hours for processing. Only first-time prescriptions and narcotic refills are generated from our office.
- All test and laboratory results are communicated back to the patient as promptly as possible.
- When leaving a message, please spell your name and provide date of birth, phone number, and a detailed request, including level of urgency. After hours, if you have an urgent healthcare need, please contact the HRRMC Emergency Department at (719) 530-2157.
- If you are unable to keep an appointment, please give 24 hours notice of cancellation.

Payment

- Payment/copy is due at time of service.
- There will be a fee for your visit. Other services, including lab tests, will be billed in addition.
- You may request an estimate of charges at time of service.
- Medicare patients of the HRRMC Outpatient Pavilion in Salida will receive one explanation of benefits—clinic charges will be added to any hospital charges that may be incurred on that same day. Medicare patients are charged the same amount as non-Medicare patients, but the bill is broken down differently for Medicare reimbursement.
- A 15% prompt-payment discount is available to self-pay and uninsured patients.
- We accept cash, check, Visa, Mastercard and Discover.
- Claims with most insurance plans are filed on your behalf.
- Structured payment plans are available.
- Billing questions may be directed to account representatives by calling (719) 530-2475.

OFFICE LOCATION

The HRRMC Outpatient Pavilion is attached to the hospital but has a separate entrance. Patients will check in for their appointment in the Outpatient Pavilion, not at the hospital's main registration desk.

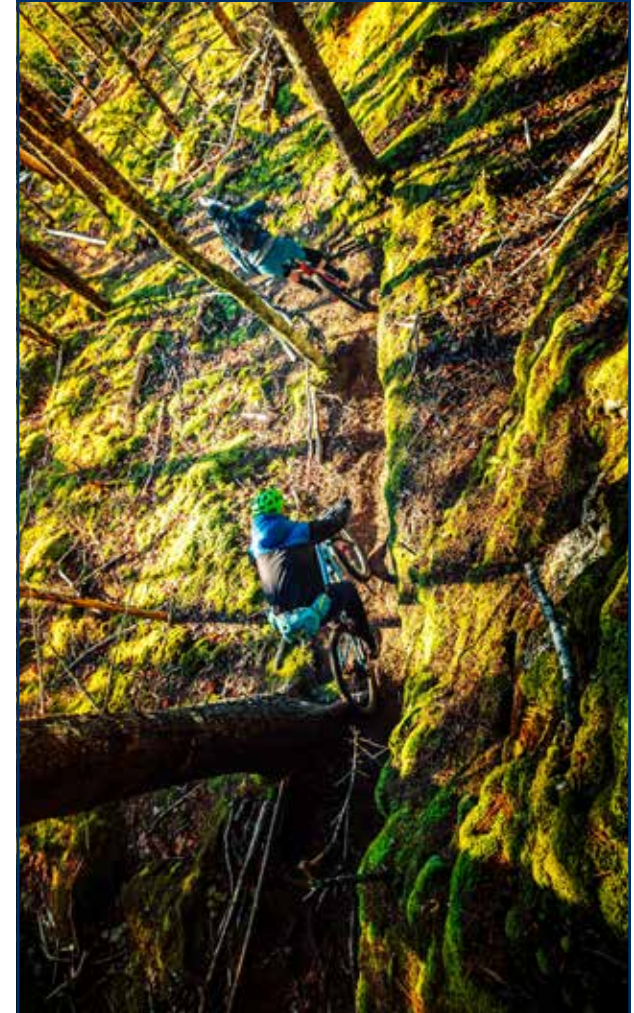

6/21

Neurosurgical Services is the newest service line to join HRRMC's comprehensive care system.

Together with our Orthopedics, Rehabilitation and Pain Management services, our highly qualified surgeons, providers, and rehab and nursing teams offer continuity of care and communication – all in one place.

Individualized Treatment Plans

HRRMC offers personalized surgical services and treatment plans for cranial, spine and nervous system disorders.

Board-certified surgeon Peter Syre, M.D., believes the key to exemplary care is individualized treatment plans that consider each patient's specific needs, and where each patient is treated as a person first.

With this approach, patients can achieve the best outcome possible — regaining their life.

Welcome

Welcome to HRRMC Neurosurgical Services. We strive to serve the Upper Arkansas Valley by offering the highest standard of personalized neurological and spine services.

Our Neurosurgical Services team specializes in treatment plans for pain, disorders and trauma focused on the brain and spinal cord, including minimally invasive spinal procedures and surgeries.

We believe in maintaining an open, communicative relationship with our patients and their primary care providers and rehabilitation therapists during and after treatment.

Scheduling

Call 719-530-2000 to make an appointment.

Clinic: Local consultations with Dr. Syre are available with a referral. **Please note:** Patients who have had an MRI related to their existing condition within the last 12 months do not need a referral to schedule an appointment with Neurosurgical Services. All other patients are required to discuss treatment options with a Pain Management Services provider prior to a consultation with Dr. Syre.

Surgery: Surgical services are available every fourth Thursday of the month.

Peter Syre, M.D., completed his residency at the University of Pennsylvania, where he pursued further fellowship training in the treatment of spinal disorders. He has a great interest in spina scoliosis, spinal trauma, and tumors of the spine in addition to a breadth

of neurosurgical diseases. Dr. Syre believes that the key to exemplary care is individualized treatment plans that consider each patient's specific needs, and where each patient is treated as a person first.

Board Certification: American Board of Neurological Surgery.

Fellowship: Pennsylvania Hospital, University of Pennsylvania, Spine; Christchurch Public Hospital, Christchurch New Zealand, Chief of Neurosurgery

Specialties: Brain tumors, trigeminal neuralgia, spinal tumors and deformities, neurotrauma, peripheral nerve disorders, and much more.

Residency: University of Pennsylvania

Medical School: University of Pittsburg, School of Medicine
